hi Avi
I've Just concluded a phone conversation with B.N.
without asking your permission I've raised your name and mentioned that somehow you've predicted and understood what happens much earlier and clearer than others. and proposed to him to contemplate why CB governors are usually not wealthy. he listened intensely but did not enter into discussion. keep it for yourself alone since we were just 1on 1. don't tell even Mr. Caspit. but if you (or Judith) reject the very idea let me know.
best
